The screenshot displays the ReadyShipper X application window. The main interface includes a menu bar (File, Edit, View, Shipping, Rules, Help) and a toolbar with icons for Ship, Stop, Reprint, and PDF. A sidebar on the left shows navigation options like Orders, Shipping Genie, Shipped, All Orders, Last Imported, Florida, Shopify, Arizona, and Discount. The central area features a table titled 'Today's Orders' with columns for Order Number, Ship To, Order Date, Total Sale, Ship Type, Print Status, # Items, Part Numbers, and Tracking Number(s). The table lists several orders, with order #1688 highlighted. On the right, a detailed view for the selected order shows fields for Order Number, Order Date, Tags, Ship Via, Ship Type, Box Options, Total Weight, Package Type, Package, Delivery Conf, Insurance, Insurance Value, Description, and Gift. The 'Ship Via' is set to UPS and 'Ship Type' is UPS 2nd Day.

## BUILT FOR MERCHANT GROWTH & RETENTION

### CRM for Ecommerce

Deliver wow-factor to decisions makers with instant access to trending products, instant customer profiles, channel and shipping performance summaries. Build a collaborative environment through Tasks, Events and internal Action Alerts.

### Connect & Grow

Grow with the needs of the merchant. ReadyCloud's growing App Store gets merchants connected with today's most popular shopping carts, order management systems and marketplaces. Need to share info with QuickBooks or ZenDesk? We can do that too.

### Sync & Roll

Now merchants can change shopping carts and keep their customer contacts, order and shipment histories. Simply connect ReadyCloud, sync and switch. Moving from Shopify to BigCommerce? Now it's easy.

### Great for 3PLs

Attract new volume from any 3PL. ReadyCloud organizes return shipments so the 3PL knows what's coming back and when to expect it. Outbound shipments are automatically organized by Profile to assign the right UPS account every time.

### Pricing starts at

**\$39** per month!
